RAGHU GR

Software Developer

+91-9731001265 raghugr131204@gmail.com linkedin.com/in/raghu-g-r github.com/Raghu131204

PROFESSIONAL SUMMARY

Software Developer with practical experience in developing and debugging software applications for real-world engineering environments. Strong foundation in C/C++ and computer science concepts, with an interest in systems programming and technology-driven problem solving. Passionate about learning, improving technical skills, and contributing to reliable software solutions.

TECHNICAL SKILLS

- C/C++
- Multithreading
- Socket Programming
- Pointers
- Microsoft Foundation Class (MFC)
- IPC
- Memory Management
- GUI Development
- Python
- NumPy
- Keras
- pandas
- Seaborn
- Machine Learning
- Deep Learning
- EDA
- Git
- GitHub
- Docker
- Debugging

WORK EXPERIENCE

Software Developer **May 2026-Present**
Cadmaxx Solutions Pvt. Ltd. **Onsite**

- Developing C/C++ based Windows applications and GUI interfaces for interacting with avionics communication interfaces such as ARINC429, MIL-1553, AFDX.
- Developing multithreaded applications to handle concurrent data transmission, reception, processing, and monitoring operations.
- Implementing socket-based communication and working with TCP/IP and UDP concepts for data exchange between software components and systems.
- Debugging and troubleshooting communication, threading, GUI, and application-level issues during development and testing.
- Working with concepts related to real-time data handling, inter-thread communication, synchronization, and concurrent processing.

Software Development Intern **Aug 2025-Apr 2026**
Electronics and Radar Development Establishment (LRDE), DRDO. **Onsite**

- Explored digital data communication protocols and **avionics communication** standards in a defense research environment.
- Gained hands-on experience in Object-Oriented Programming (OOP) and C/C++ application development.
- Worked with computer networking concepts and communication mechanisms as part of application development.
- Developed an understanding of multithreaded programming, data communication, and real-time data handling.

- Used Visual Studio for development, debugging, testing, and troubleshooting of C/C++ applications.

Data Science Intern **Feb 2025-Mar 2025**
Shell India Markets Pvt. Ltd. **Remote**

- Solved data-driven business problem statements using supervised machine learning techniques.
- Built regression and classification models with Scikit-learn achieving competitive accuracy benchmarks.
- Performed end-to-end data preprocessing, feature engineering, and exploratory data analysis on large tabular datasets.

EDUCATION

Channabasaveshwara Institute of Technology **Gubbi, Tumakuru**
B.E. in Computer Science Engineering (CGPA: 8.95 / 10) **Nov 2022-Apr 2026**

PROJECTS

Camouflaged Object Segmentation | Link **Aug 2025 -Jan 2026**

- Designed a computer vision pipeline using **Vision Transformer (ViT)** for feature extraction on visually complex camouflage datasets.
- Built a **SegNet-based** decoder for precise pixel-level segmentation, achieving strong performance on benchmark evaluation metrics.
- Implemented and evaluated the end-to-end segmentation pipeline using **Keras**, including model training, dataset preprocessing, and performance evaluation.

House Price Prediction Web App | Link **Jan 2024-Jun 2024**

- Developed an end-to-end ML web application using **Flask and Scikit-learn** to predict real estate valuations from historical data.
- Integrated **REST API backend with an HTML/CSS frontend**, enabling real-time inference for user-submitted property inputs.

Cached Proxy Server | Link **Nov 2024-Dec 2024**

- Built a C++ network proxy server that intercepts and forwards HTTP requests, implementing local caching to reduce redundant network calls and improve response time.
- Implemented concurrent client handling using threads and socket programming for reliable multi-connection support.

CERTIFICATIONS

- Neural Networks and Deep Learning. **DeepLearning.ai**
- Deep Learning in Ecological Studies. **IIRS Dehradun**
- Network Architecture Fundamentals. **Cisco**
- Python (Basic) . **HackerRank**

AWARDS

- **Best All-Round Excellence Award** – Recognized for Educational Excellence and Technical Excellence.
- **First Prize - Code Debugging Competition**, Channabasaveshwara Institute of Technology.
